What was written down

- Replaced in 2019. The History tab uses that same year.
- This page does not copy a warranty form, logo, or coverage booklet.
- Sample desk phone copied onto the file: (555) 010-5500. Not a real support line.
- If the tank leaks, the main water shutoff is in the garage, on the left wall, behind the shelf.
- The house is on a slab and has no sump pump.

Other systems (not covered by this record)

System	What the House File already says
HVAC	Carrier heat pump, installed 2016, filter 16x25x1.
Roof	Architectural shingle, replaced 2012.
Panel	Laundry room closet.

Brand and size are plain text so the sample matches the Bones tab. This is not a Rheem document and grants no coverage.
